EXPERIENCE

Connect App

With the fast-paced world and work environment, most social interaction has shifted to digital means. However, when it comes to meeting new friends it gets hard because of the busy schedule. The solution was to **create an app dedicated solely towards meeting strangers** around the world in the easy way possible. **My role** in this project was **doing research, planning and designing**. Duration of the project was **3-week** project

Stepn App for watch

STEPN is a Web3 running app with fun game. Users **equip themselves with NFTs in the form of sneakers**. By walking, jogging or running outdoors, **users will collect GSTs**. User were facing problem as its **hard to monitor on phone** while running on there phone. **My role** in this project was **doing research and designing app for the watch**. Duration of the project was **2-week** project

Redesigning Omegle

Omegle (oh meg ull) is a great way to meet new friends, even while practicing social distancing. When you use Omegle, you are **randomly paired with another person** to talk one-on-one. If you prefer, you can add your interests and you'll be randomly paired with someone who selected some of the same interests. **The website feels really cluttered**. I felt confused upon reaching the landing page. **Too much of unnecessary information**. **My role** in this project was **redesigning designing**. Duration of the project was **24 hr challenge**

EDUCATION

Pursing BBA(CA)
Azam Campus
2019 - 2022, Pune
